Mr. Norbert Alexiou

2238 Jeffersonia Way  
Los Angeles, CA 90049

Subj.: Film project: „Who is my Dad? – A German’s Search for his American GI father“

Dear Mr. Alexiou,

The German Consulate is very interested in your film project and is willing to support it logistically and financially. We are ready to help with travel expenses to support your research in Germany. We would also like to offer the facilitation, through our office, of any contact you will need to make with authorities in Germany.

We believe that the documentation of your own search for your American father will also inspire other German children and American fathers to continue their search and to help find each other. Through this touching story American and German audiences may learn how strong family ties across the Atlantic can be.

We hope that the film will also be a positive reminder of the important contribution of the American forces to a peaceful development of West Germany after the Second World War. This was the precondition for the unification of our country. The presence of American soldiers and their families in Germany is an important human bridge for understanding and to further strengthen the German – American Friendship.

We wish your team all the best for the project and encourage you to keep in close contact for further support from our office.

Sincerely,

Hans Jürgen Wendler  
Consul General
